## From the Township Secretary

### New Township Building Update

As of this writing, the Township Building Project is nearing completion. The exterior building work is complete and the interior is nearly finished, with only the final touches remaining. The site work is progressing with curbs, sidewalks, and driveway aprons nearly installed. Final paving should be under way by the second week of October. Interior furnishings will start to be installed the weeks of October 17th and 24th. The Police Department should be operating in the new building by the end of October. The Township has scheduled its "move-in" for the weekend of October 28.

There will be a flurry of activity over the next several weeks as the contractors put on the final touches, work on "punch-list" items, make the final adjustments, and turn the building over to the Township. It is expected that occupancy should be granted by the first week of November.

The Township has contracted with an Auctioneer for the sale of the old Township Building. Watch for the advertising as a date for the auction approaches.

The Township Supervisors expect to have their first meeting in the new building on November 8, 2011. A brief open house will precede this meeting at about 7:00 pm. As the Township settles into the new building, a "Grand Opening" will be held; the date will be Saturday, December 10, from 1 pm to 5 pm. All other Township committees and Boards will have their regular meetings in the new building starting in November. Watkins Architects, Ltd. has worked diligently with the Township and the Contractors to ensure a smooth construction, completion and occupancy.

### Maintenance Department News

By Tom "Pete" Hornberger

Fall is here! So, we turn our attention to finishing up mowing and some sign work that still needs to be done as well as the occasional pot hole that needs a little attention. We repaired a couple of roads this summer and hopefully next year we can continue that process.

Just a reminder that the street lights are repaired by PP&L not the maintenance department, we will notify them but we do not repair them.

Soon the white flakey stuff they call "snow" will be upon us and we will be out and about clearing the roads and spreading a mixture of anti skid and salt. Just a reminder that some roads take priority over others but we will get them all cleared in the most timely matter we can.
