From the Township Secretary

By Randy Miller

You will soon be noticing detour warnings for the closure of Mill Road. The Mill Road Culvert project is expected to start in late July and will require that Mill Road be closed at Best Road on the south and Valley Road on the north. Local traffic will still be able to access homes and businesses on either side of the closure. This project is expected to last about six weeks. As part of the project, Mill Road will be resurfaced from the project area to Best Road. The detour will be established at Best Road to Route 10, to Route 23. The Township intends to post warnings in Honey Brook Township well ahead to inform residents who might want to seek alternate routes.

Since the Township has been reserving funds for the culvert project, few other street projects have occurred. Since the costs are now known for the Mill Road project, there will be additional monies available for other street work. Please watch the website and this newsletter for further information.

As you may have noticed, the Township has installed a sign board at its new offices. We will be advertising meetings and other important information. Additionally, please keep an eye out for public service announcements from the Chief of Police.
